STATEMENT OF EXECUTIVE COMPENSATION
FOR THE YEAR ENDED DECEMBER 31, 2023
DATED EFFECTIVE JUNE 28, 2024

The following Compensation Discussion and Analysis is intended to provide information about the Company’s philosophy, objectives and processes regarding compensation for the executive officers of the Company. It explains how decisions regarding executive compensation are made and the reasoning behind these decisions.

Compensation Philosophy and Objectives of Compensation Programs

Introduction

The following section describes the significant elements of the Company’s executive and director compensation program. The Named Executive Officers for the year ended December 31, 2023 include Allen Davidoff, CEO, James Fairbairn, CFO, Amar Keshri, former CFO, Stacy Evans, CBO and Stephen Haworth, CMO.

Overview

Compensation Philosophy

The goal of our compensation program is to attract, retain and motivate our employees and executives. The Board and our Compensation Committee are responsible for setting our executive compensation and establishing corporate performance objectives. In considering executive compensation, the Board strives to ensure that our total compensation is competitive within the industry in which we operate and supports our overall strategy and corporate objectives. The combination of base salary, annual incentives and long-term incentives that we provide our executive officers is designed to accomplish this. The Compensation Committee considers the implications of the risks associated with our compensation policies and practices. Named Executive Officers and directors are not permitted to engage in the short selling of, or sell call options or buy put options in respect of, the securities of the Company except as may be permitted under the provisions of the *British Columbia Business Corporations Act* (the “BCBCA”) and applicable securities laws.

Components of Compensation Package

Compensation for the executive officers is composed primarily of three components: base compensation, performance bonuses and the granting of Options.

Determining Compensation

Our Board is responsible for ensuring that the Company has in place an appropriate plan for executive compensation ensuring that total compensation paid to all executive officers is fair and reasonable and is consistent with the Company’s compensation philosophy and in line with industry practice.

Our Board and Compensation Committee review the performance of the executive officers and consider a variety of factors, when determining compensation levels. These factors, which are informally discussed by the Board and Compensation Committee, include the long-term interests of the Company and its Shareholders, the financial and operating performance and objectives of the Company and each executive officer’s individual performance, contribution towards meeting corporate objectives, responsibilities and length of service. Our Board believes that the compensation arrangements for the Company’s executive officers are commensurate with the executive officer’s position, experience and performance. The directors and Compensation Committee of the Company will continue to review compensation philosophy to ensure that the Company is competitive and that compensation is consistent with the performance of the Company.

Risk-Management Implications

The Compensation Committee exercises discretion in relation to compensation and the allocation of ‘at-risk’ compensation (being cash bonuses and securities-based compensation), to encourage and reward performance that advances the Company’s strategic objectives while mitigating the Company’s exposure to business and financial risks including those identified in the Company’s Annual Information Form and Management’s Discussion and Analysis. The nature of the business and the competitive environment in which the Company operates requires some level of risk-taking to achieve growth. The following aspects of the Company’s executive compensation program are designed to encourage practices and activities that should enhance long-term value and sustainable growth and limit incentives that could encourage inappropriate or excessive risk-taking:

- an annual cash bonus target, determined as a percentage of an executive’s annual salary, that may be earned in a calendar year;
- staged vesting over a three year period of Options granted to executives with a maximum of one-third vesting per annum; and

The Compensation Committee regularly considers risks associated with the Company’s compensation policies and practices. The Compensation Committee has not identified compensation policies or practices that are reasonably likely to have a material adverse effect on the Company.

Compensation Mix

The Company compensates its executive officers through base salary, cash bonuses, the award of Options under the Company’s Option Plan at levels which the Compensation Committee believes are reasonable in light of the performance of the Company under the leadership of the executive officers. The objective of the compensation program is to provide a combination of short, medium and long term incentives that reward performance and also are designed to achieve retention of high-quality executives.

The following table provides an overview of the elements of the Company’s compensation program.

Compensation Element	Award Type	Objective	Key Features
Base Salary	Salary	Provides a fixed level of regularly paid cash compensation for performing day-to-day executive level responsibilities.	Recognizes each officer’s unique value and historical contribution to the success of the Company in light of salary norms in the industry and the general marketplace.
Annual Cash Bonuses	Annual non-equity incentive plan	Motivates executive officers to achieve key corporate objectives by rewarding the achievement of these objectives.	Discretionary cash payments recommended to the Board by the Compensation Committee based upon contribution to the achievement of corporate objectives and individual performance.
Long-Term Incentives	Option-based awards	Long-term, equity-based, incentive compensation that rewards long-term performance by allowing executive officers to participate in the long-term appreciation of the Company’s Common Shares. The Compensation Committee believes that the granting of Options is required in order for the Company to be competitive with its peers from a total remuneration standpoint and to encourage executive officer retention.	Annual and special incentive stock option awards granted as determined by the Board, typically based on recommendations from the Compensation Committee. Options are granted at market price, generally vest equally over 36 months and have a term of five years.

The Named Executive Officers are also eligible to participate in the same benefits offered to all full-time employees. The Company does not view these benefits as a significant element of its compensation structure but does believe that they can be used in conjunction with base salary to attract, motivate and retain individuals in a competitive environment.

Assessment of Compensation

In determining appropriate levels of executive compensation, the Compensation Committee utilizes publicly available compensation surveys and information contained within annual proxy circulars. The Compensation Committee also takes into account recommendations made by the Chief Executive Officer in respect of the Named Executive Officers (other than himself). In reviewing comparative data, the Compensation Committee does not engage in benchmarking for the purposes of establishing compensation levels relative to any predetermined point. In the Compensation Committee’s view, external and third-party survey data provides an insight into external competitiveness, but is not an appropriate single basis for establishing compensation levels. This is primarily due to the differences in the size, scope and location of operations of comparable corporations and the lack of sufficient appropriate matches to provide statistical relevance.

Salary: Base salary is intended to compensate core competences in the executive role relative to skills, experience and contribution to the Company. Base salary provides fixed compensation determined by reference to competitive market information. The Compensation Committee believes that salaries should be competitive and, as such, should provide the executive officers with an appropriate compensation that reflects their level of responsibility, industry experience, individual performance and contribution to the growth of the Company. The 2023 base salaries of the Named Executive Officers of the Company disclosed in the “*Summary Compensation Table*”, were established primarily on this basis.

Annual Cash Bonuses: Bonuses are paid at the discretion of the Board on recommendation of the Compensation Committee, based upon the performance of the individual, achievement of corporate objectives and the individual executive’s contribution thereto. Bonuses awarded by the Compensation Committee are intended to be competitive with the market while rewarding executive officers for meeting qualitative goals, including delivering near-term financial and operating results, developing long-term growth prospects, improving the efficiency and effectiveness of business operations and building a culture of teamwork focused on creating long-term shareholder value. Consistent with the flexible nature of the annual bonus program, the Compensation Committee determines on an annual basis the goals of management and the weighting of such goals in determining annual bonuses. The Board can exercise discretion to award compensation absent attainment of a pre-determined performance goal, or to reduce or increase the size of a bonus award. To date, the Board has not exercised its discretion to award a bonus absent attainment of applicable performance goals. The Compensation Committee considers not only the Company’s performance during the year with respect to the qualitative goals, but also with respect to market and economic trends and forces, extraordinary internal and market-driven events, unanticipated developments and other extenuating circumstances. In sum, the Compensation Committee analyzes the total mix of available information on a qualitative, rather than quantitative, basis in making bonus determinations. Target bonuses for Named Executive Officers may be exceeded if an executive officer is instrumental in the achievement of favourable milestones in addition to pre-determined objectives, and in circumstances where an executive’s individual commitment and performance is exceptional.

As part of its duties and responsibilities and in conjunction with year-end assessments, the Compensation Committee reviews the achievement of the Company’s objectives set at the beginning of the year, and assesses each element contained in the corporate objectives. During the 2023 fiscal year 20% of the key goals were met. The Company’s key goals for the year ended December 31, 2023 included the following components: (1) financing goals (15% weighting); (2) share price performance (15% weighting); (3) regulatory advancements (40% weighting – *partially achieved*); and (4) strategic relationship advancements (30% weighting).

Long-Term Incentives: The allocation of Options, and the terms thereof, are integral components of the compensation package of the executive officers of the Company. The Company’s Option Plan is in place for the purpose of providing equity-based compensation to its officers, employees and consultants. The Compensation Committee believes that the grant of Options to the executive officers serve to motivate achievement of the Company’s long-term strategic objectives and the result will benefit all shareholders of the Company. Options are awarded to employees of the Company (including the directors and Named Executive Officers) by the Board based in part upon the recommendation

of the Compensation Committee, which bases its recommendations in part upon recommendations of the Chief Executive Officer relative to the level of responsibility and contribution of the individuals toward the Company's goals and objectives.

To date, Options granted to Named Executive Officers vest equally over 36 months. The Compensation Committee exercises its discretion to adjust the number of Options awarded based upon its assessment of individual and corporate performance and the anticipated future hiring requirements of the Company. Also, the Compensation Committee considers the overall number of Options that are outstanding relative to the number of outstanding Common Shares of the Company and the overall number of Options held by each individual optionee relative to the number of Options that are available under the Option Plan in determining whether to make any new grants of Options and the size of such grants. The granting of specific Options to Named Executive Officers are generally reviewed by the Compensation Committee for recommendation to the Board for final approval.

The Compensation Committee's recommendations are based on a number of factors, including the Company's performance as measured by the advancement of business objectives, which performance is not necessarily reflected in the trading price of the Common Shares on the TSXV and Nasdaq. The trading price of the Common Shares on the TSXV and Nasdaq is subject to fluctuation based on a number of factors, many of which are outside the control of the Company. These include, but are not limited to, conditions affecting the technology and life sciences markets, global economic conditions, fluctuations and volatility in foreign exchange rates, changes in government and legislation, and other factors, some of which are disclosed and discussed under the heading "Risks Related to the Business" in the Company's most recently filed annual and interim Management's Discussion and Analysis and under the heading "Risk Factors" in the most recently filed Annual Information Form of the Company, all of which are available for viewing under the Company's profile on SEDAR+ at www.sedarplus.ca.

The chair of the Compensation Committee may be designated by the Board or, if it does not do so, the members of the Compensation Committee may elect a chair by majority vote. Decisions at Committee meetings are decided by a majority of votes cast. The mandate also grants the Compensation Committee access to officers, employees and information of the Company and the authority to engage independent counsel and advisors as it deems necessary to perform its duties and responsibilities. The mandate of the Compensation Committee is available on the Company's website at <https://www.xortx.com/investors/corporate-governance>.
